The Cabinet Decides the Course to Be Taken by the United States.

Washington, D. C., April 1.—[Special.]—A Cabinet conference was held tonight at the home the house of the Secretary of State, to determine in the relation of Panama. Secretary Hay, Secretary Root, Secretary Moody, and Postmaster-General Payne were present. It was decided that while the government has no responsibility for internal affairs of Panama it is bound to see that the Panama railroad is protected and uninterrupted transit across the isthmus.

With that in view telegrams were sent to the Governor of Panama and Commander Hunt of the Nashville to maintain order, assist the Panamans and protect the railroad and ensuring property and lives thereon.

Orders were sent to the Commandant of the Brooklyn Navy Yard to gather the available marines there lifting guns and men to Panama, and have them in readiness for transportation.

Secretary Wilson was requested the Secretary of the Navy Bureau of Navigation to see that the Government property is moved promptly across the isthmus as possible or quickly, and asked him to have power in readiness to proceed to Panama.

The Secretary is inclined that the attempt will be made by the Colombian troops to land at Colon. If the orders issued by the Government against the transportation of troops or ammunition across the isthmus are disregarded, the immediate movement of the marines and troops will be ordered.

The Secretary does not believe that there will be any interference with or that the service of the United States forces will be required. There may be, in his opinion, no cause for the employment of a single soldier. The forces already available are sufficient for the emergency, and a force of 400 men is deemed to be the limit of precaution.

A naval officer who has recently returned from Panama says that Commander Hunt, who has charge of the Nashville, is a very good man and a fine officer, who has a most excellent record. He has also a son of the rank in the navy of his class, who has lately gone out Brooklyn navy yard, and is married to a niece of Secretary Moody, and Admiral Taylor, and other officers.

"The forces could destroy all the artillery there on the coast in two hours' time," he said. "I wonder the war vessels do not do it. Tomorrow that the Lackawanna who may overtake and put on the same footing as the Government has done in the case of the Boston and the Dispatch, and will proceed to Colon, and will proceed to Panama. Other vessels are on their way to the Isthmus, and the Nashville will be reinforced before long."

Admiral Dewey before leaving took for Colon arranged more than the Panama Canal had enough to finance enterprise rather to help the white country and any one regrets that Panama could lead to trouble at last.

The Colombian Insurgents Have the Victory of Capture of Chiriquicito at Guadalupe Bridgeway.

Washington, D. C., April 1.—The following dispatch from Commander Dunn of the United States gunboat Nashville has just been received by the Secretary of the Navy:

"Arrived at Colon. On way thereof Corinto for information in regard to the Government property on the north end of the railroad, and the naval property at Colon, and the navy buildings there. The Shipping Agent, I have in my hands as above-mentioned property. Am now in communication with Commander Hunt, and have decided to land a force under Lieutenant Commander Dunn, to-morrow to act of the French engineers, and guard the property.

"The Nashville will remain at Colon. Dr. Eyre, the Panama railroad physician, and Mr. Ryan, the Panama railroad agent, have been ordered to the United States. Mr. Eyre has been in charge of the Panama railroad hospitals for many years, and has rendered valuable service to the Government. Mr. Ryan has been in charge of the Panama railroad agency at Colon for many years, and has rendered valuable service to the Government. Both these gentlemen have been ordered to the United States by the Panama railroad company, and not by

It is said that the Illinois Democrats have resolved that Morrison should be elected to the United States Senate, and they are determined to demonstrate this fact to him as quickly and as emphatically as possible. A meeting of Democrats from Illinois has been called, to take place tonight in Washington, in order to determine if any line of policy can be agreed upon to persuade Mr. Morrison to withdraw and to give his support to a dark horse. It is suggested that the best candidate upon whom the leading D. Democrats should be a businessman who has had considerable political experience but no connection with politics.

Mr. Edmunds, United States Commissioner of Indian affairs, has rendered a decision in the case that Secretary Teller's action in causing an examination to be held concerning the Osage Chief, Indian Interpreter to withdraw was illegal and was because of the illegality of the case. Commissioner Atkins accordingly to Secretary Lamar that the request to order which opened the books to additional staff be rescinded, Secretary Lamar suggested the order were thereupon.

A conference conference was held in Washington yesterday to determine the course of the Government in reference to the collection of Pensions. It was decided that the Government is bound by the treaty with Canada to insure the full, successful result across the Atlantic. Letters were sent out to the Secretaries Interior to gather the available evidence and some testing pros and to have them in readiness for immediate transportation.

One of the most prominent of the anti-money parties, the Boston Advertiser, has built into hard and a striking and earnest appeal against Secretary Lamar insulted the country by turning the flag half-mast to respect to the memory of that curse traitor, Jeff Davis. [Cincinnati Gazette.

It is strange indeed that any paper in the country should be so ignorant of the facts in the case as to make such a statement as the Gazette has made. Secretary Lamar ordered the flag to be raised to half-mast on the day of the funeral of Jefferson Davis, in accordance with the universal custom of the Executive and the usage of the Government in the case of the death of any person who has filled the office of President. Secretary Lamar has done nothing more than this. He has not issued any order in regard to the matter, and has not even referred to it in any official way. The Gazette's statement that he has done so is false. [Chicago Times.

Mr. Edmunds's letter to Secretary Teller's letter to Secretary Lamar, declining to withdraw the order of suspension in the case of Indian Interpreter Mitchell, is a model of clear, concise, and forcible statement. It is a complete vindication of the action of the Secretary of the Interior, and a complete refutation of the charges that have been made against him. Mr. Edmunds has shown that the Secretary of the Interior has the power to suspend, and that it is his duty to suspend, any person in the employ of the Government whose character or conduct renders him unfit for the position he holds. Mr. Edmunds has also shown that the Secretary of the Interior has the power to suspend

Lord Salisbury's speech at the Primrose League meeting last night is considered by the Conservatives to be a very important utterance. BUSINESS MATTERS.

Junius Pratt, broker and dealer, sells an amount of bankrupt stock, consisting of a lot of which proper chattels could be found, valued at by a perplexing young attorney yesterday during the legal set-out took.

"Can your lawyer get that gun for your breakfast, or is it some other sort of bird?" said the Justice. The case was that of the Deputy Sheriff, Hamilton and Mason, there to-day, officers who have arrested Lemuel Hay for the murder of a special agent and lumber. The Justice decided that, as they sell to the privilege of running down and arresting, they could not get which such purchase to the Deputy Sheriff by Mr. Hayes, the attorney for the defendant, and the case was dismissed. Mr. Hayes also said that he had the right to sell, but that he had the right to sell, but that he had the right to sell, but that he had the right to sell.

Detectives Green and Bowen recovered property Harris Rosenberg of New York, who is wanted for receiving forged letters of credit and drafts.

A MARVEL OF PURITY.

Royal a Perfect Baking Powder—Absolutely Free from Lime.

The Royal Baking Powder is considered by all chemists and food analysts to be a marvel of purity, strength, and wholesomeness. Furthermore, it is now the only baking powder before the public free from lime and absolutely pure.

This is due largely to the improved method by the use of which it has been made possible to produce a perfectly pure cream of tartar, from which all the lime has been eliminated.

This chemically pure cream of tartar is exclusively employed in the manufacture of the Royal Baking Powder, so that its absolute freedom from lime and all other extraneous substances is guaranteed.

Professor McMurtrie, late chemist-in-chief to the U. S. Department of Agriculture, after analyzing many samples of cream of tartar of the market, testified to the absolute purity of that used in the Royal Baking Powder as follows:

"I have examined the cream of tartar manufactured by the New York Tartar Company and used by the Royal Baking Powder Company in the manufacture of their baking powder, and find it to be perfectly pure, and free from lime in any form.

"All chemical tests to which I have submitted it have proved the Royal Baking Powder perfectly healthful, of uniform, excellent quality, and free from any deleterious substances.

The New Form for Stating the Assets and Liabilities of the Treasury.

Expert Author's Scheme to Get Aside a Vast Reserve to Redeem United States Notes.

Intended to Have the Administration's Intermingled List of Transactions Examined.

THE DEBT STATEMENT.

WASHINGTON, D. C., April 1.—[Special.]—The Secretary of the Treasury issued [illegible] the debt statement, and the Treasurer of the United States the monthly statement of assets and liabilities, both to the act ion to the end of March. The decrease of the public debt for the month of March amounts to $[illegible]. The old form continued in use which is considered [illegible] has been in use ever since the Treasury was established. The new form is the one which was suggested by Mr. Conrad N. Jordan, the former cashier of the Chase National Bank in New York, who was employed by Secretary Manning for that purpose. It is understood that the Secretary of the Treasury will adopt the new form on the statement current of April 1st, and the assets and liabilities, and thus during the remainder of the fiscal year [illegible] these statements will be necessary [illegible] to both the old and new forms.

SECRETARY'S REPORT.

The principle upon which the change in the form of statement has been made is that of exhibiting the net liabilities of the Government to the public. By Secretary Manning's theory of the act certain available funds for the payment of the public debt is now [illegible] from the new debit principles, to be drawn, under Secretary Fairs, and from the [illegible] of a bookkeeper the further theory that the power to organize an asset currency [illegible]. It will also [illegible] to retire, and undoubtedly will furnish a test for ascertaining the opinion on the part of the [illegible] from the opinion of the Secretary of the Treasury.

The main points of difference in the [illegible] are that the old statement does not show [illegible] and [illegible] a reserve for the redemption of [illegible] notes, and [illegible] the Treasurer of the United States [illegible] the Secretary of the Treasury
